Guide

You use this form only if the enterprise is to be struck off from all registers, the Central Coordinating Register for Legal Entities and the affiliated registers.

For limited companies, public limited companies, limited partnerships, general partnerships, co-operatives, inter-municipal companies and foundations, among others, the closing down is a two-step process. A business enterprise which is dissolved can use this form to notify about the final striking off once the creditor time limit has expired and the liquidation accounts are approved by the competent body.

Most of the other types of organisation are struck off without a preceding notice to the creditors, such as sole proprietorships, companies with limited liability, jointly owned shipping companies, municipal business enterprises, county municipal business enterprises, associations, among others.

Required attachments when an enterprise is struck off from the Central Coordinating Register for Legal Entities:

When an enterprise is going to be struck off from the Central Coordinating Register for Legal Entities, you have to attach documentation/ minutes showing the decision to close down the enterprise. This does not apply for sole proprietorships, i.e. these enterprises do not have to attach any such documentation. When a sub-entity is taken over or transferred a statement from the person transferring or taking over must be attached.
